ABOUT ME

MERN Stack developer with hands-on experience in MERN stack development, focused on building responsive, scalable, and efficient web applications. Proficient in developing RESTful APIs, implementing dynamic user interfaces with React, and managing databases using MongoDB. Strong understanding of JavaScript (ES6+), version control with Git, and modern development practices. A quick learner with a passion for programming and problem-solving, adaptable to new technologies, and committed to writing clean, maintainable code. Aiming to grow professionally and contribute effectively within collaborative, agile development teams while delivering high-quality user-focused solutions.

SKILLS

Language

HTML, CSS, JavaScript (ES6+/ECMA), TypeScript, C, C++, SQL, JSON

Backend

Node.js, Express.js, MVC Architecture, RESTful APIs, API Integration, Multer, JWT, Bcrypt, OAuth 2.0, NPM

Frontend

React.js, Next.js, Angular, Redux Toolkit, Context API, React Hooks, Tailwind CSS, Bootstrap, Material UI, Shaden UI, Responsive Web Design

Database

MongoDB, PostgreSQL, SQL

Tools

Git, GitHub, Postman, Testing & Debugging

EXPERIENCE

MERN Stack Developer Intern, Synnefo Solutions

06/2025 – Present

Kochi

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developed RESTful APIs and integrated frontend with backend. Implemented responsive UI components using React and Tailwind CSS.
- Managed database operations and performed CRUD functionalities.

Web Development Internship, Wogle Tech

12/2024 – 02/2025

Bangalore

- Built interactive web-based applications using HTML, CSS, and JavaScript.
- Implemented responsive design to ensure usability on multiple devices.
- Practiced frontend development and debugging.

PROJECT

AI-Resume Builder (On-going), Tech Stack: MEARN Stack | NLP | AI Integration

Link: <https://github.com/aj-allenn/AI-RESUME-BUILDER-PROJECT.git>

- Developed a full-stack web application using React.js, Node.js, Express.js, and MongoDB.
- Built an AI-powered resume builder with smart templates for structured resume creation.
- Implemented NLP-based resume parsing for skill extraction and keyword analysis.
- Designed an intelligent job-matching algorithm to recommend relevant job opportunities.
- Integrated social authentication using Google.
- Designed RESTful APIs for seamless frontend-backend communication.

Double Barrel (Team Project), Tech Stack: MERN, Redux, JWT, Passport.js, TailwindCSS

Link: <https://github.com/aj-allenn/double-barrel.git>

- Collaboratively developed a product-based application as part of a team project.
- Coordinated with team members to ensure smooth integration and timely completion.
- Built RESTful APIs for product management, cart operations, order processing, and user authentication.
- Implemented JWT-based authentication and Passport.js OAuth strategies to ensure secure user access.
- Integrated Redux Toolkit for global state management, ensuring efficient cart updates and real-time UI synchronization.
- Implemented file upload handling using Multer for product image management.
- Maintained version control and collaboration workflows using Git and GitHub.

Contact Management Application, Tech Stack: Express, MongoDB, HTML, CSS

Link: <https://github.com/aj-allenn/Contact-Management-App.git>

- Developed a Contact Management Application using React.js that allows users to add, view, update and delete contact details.
- Implemented state management using React Hooks and integrated local storage to ensure data persistence while maintaining a responsive and user friendly interface.
- Built RESTful APIs for creating, updating, deleting, and retrieving contacts.
- Integrated search and filtering functionality for efficient contact lookup.
- Maintained version control and collaboration workflows using Git and GitHub.

Student Management Application, Tech Stack: MongoDB, Express, Node.js, Html, CSS

Link: <https://github.com/aj-allenn/Express-Student-management.git>

- Developed a full-stack College Management System using the MERN stack to streamline academic and administrative processes.
- Implemented secure authentication, role-based access for admins, faculty, and students, and features such as course management, student registration, and timetable handling.
- Built responsive React interfaces and RESTful APIs with Node.js and Express, using MongoDB for efficient data storage and retrieval.

EDUCATION

MERN Stack Development Course, Synnefo Solutions, Kochi

2025 – Present

Bachelor of Computer Application, Musaliar College, Pathanamthitta

2022 – 2025
